Project Initialization and Planning Phase

Date	21 October 2026
Team ID	VAI-AI-2026
Project Name	VoyageAI — Personalized AI Travel Itinerary Planner
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example Template Framework:

I am Customer	**I'm trying to** Action	**But** Obstacle	**Because** Root Cause	**Which makes me feel** Impact Emotion

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An independent traveler or vacationer seeking authentic, customized trips.	Create a realistic, day-by-day travel itinerary tailored to my specific budget, dates, and vibe.	The planning process requires 20+ hours of tedious research across dozens of websites.	Existing travel platforms offer rigid, one-size-fits-all packages without dynamic route or time optimization.	**Overwhelmed** by decision fatigue, stressed, and anxious about overspending.
PS-2	A group trip coordinator organizing vacations with friends or family.	Organize and share a flexible daily schedule with clear time slots and exportable offline access.	Modifying plans on the go or recalculating budgets when someone wants changes causes friction.	Static PDFs and booking apps do not support single-day AI re-rolls or in-place activity edits.	**Burdened** by logistical coordination, making trip planning feel like a stressful chore.
